Homework 6
Due Thursday, November 10

Readings

Article in *Science* on graduate admission to Berkeley in 1973-4, linked from the class web-page.

Essay (due in class on Wednesday, November 10)

Your friend is sending out applications for graduate school and she is worried about her chances giving that she is female. Many schools share a lot of information on their demographics online. Using the Berkely 1974 data explain her what information she should look for what level of detail is relevant for her. You can detail your arguments using the dataset available in R called UCBAdmissions.
